# ARCADIA

Arcadia is Keyline's new key cutting machine for tubular keys. It can be used to cut tubular keys of several brands, thanks to the wide, ever expanding range of adapters available.

It was manufactured pursuant to the most recent safety standards. The electronic control starts the cutter only when it is close to the key; the high-security protection barrier and the LED light enhancing visibility in the work area make it possible to use this machine reliably, safely and pleasantly.

Thanks to the perfect engineering of its mechanism, it is also possible to use existing key cutting adaptors, which, in turn, leads to the optimisation of the investment.

Arcadia是Keyline新推出的一款切割管状钥匙的配匙器。它能够完美地配置不同品牌的管状钥匙，因为它拥有许多适配器，而且在不断地增加。机器的设计符合最新的安全标准。

仅在机器接近钥匙时，电子控制器才会启动切刀；高安全的保护屏和LED照明灯使工作区视线更佳，这些特点使机器的使用更可靠，更安全和愉快。感谢明智的机械设计，机器还可以使用已经存在的适配器切割钥匙，从经济角度上优化了投资。
