A BIANCHI 1770 GROUP COMPANY

KEYLINE FORD REMOTE CONTROLS

The range of Keyline car remotes expands with the RFD100 and RFD80 models for Ford keys, presented to the world for the first time. Entirely on-board clonable, they guarantee perfect synchronization with the original Ford remote without altering the functionality.

Keyline remote for Ford is available in two versions:

RFD100 - With an integrated TK100 board, which is the universal electronic head for all types of fixed code transponders, Texas Crypto transponders and second generation Philips Crypto transponders. With this version, key functions can be cloned with the 884 Decryptor Ultegra or with 884 Decryptor Mini. Remote functions can be easily programmed on-board.

RFD80 - With the original Texas 80 bit integrated transponder, to be programmed with a diagnostic tool. Remote functions can be easily programmed on-board.

Keyline RFD100 and RFD80 have a plastic head with four buttons and a replaceable battery, and are available with three different key blades - FD3, FD21 and FD40 - for the duplication of Ford models from 1998 onwards.

Keyline показывает предварительный показ модели RFD100 и RFD80 для Форда ключей, клонируемые пульты дистанционного управления с 884 Decryptor Ultegra.

Они запрограммированы полностью в автомобиле и гарантируют идеальную синхронизацию с помощью оригинального пульта дистанционного управления Форд, который не изменить функцию и работать вместе.

Пульт управления Ford от Keyline предлагается в двух вариантах исполнения:

RFD100 - Со встроенной платой TK100, универсальной электронной головкой Keyline, которая позволяет копировать все типы транспондеров с фиксированным ключом, все транспондеры Texas Crypto и Philips Crypto второго поколения. В этой версии ключ можно клонировать с 884 Decryptor Ultegra и с 884 Decryptor Mini. Пульт дистанционного управления можно легко запрограммировать на борту автомобиля.

RFD80 - С оригинальным встроенным транспондером Texas 80 bit для программирования с диагностикой. Пульт дистанционного управления можно легко запрограммировать на борту автомобиля

Keyline RFD100 и RFD80 есть пластиковая голова с четырьмя кнопками и сменным аккумулятором, и они доступны в трех различных ключевых лопастей - FD3, FD21 и FD40. Для дублирования удаленных функций и для дублирования моделей Форда с 1998 года.

** Texas is a broad meaning of the Company Texas Instruments Incorporated registered as a Trade Mark. * Philips is a broad meaning of the Company Philips registered as a Trade Mark. All brands and trademarks published here are exclusive property of the relevant car makers or groups. For instance, brands such as Abarth, Alfa Romeo, Fiat, Lancia are owned by the Fiat Group and are published herein only and exclusively as a reference for the final customer, in order to identify the spare part to be used.

** Texas является зарегистрированной торговой маркой Texas Instruments Incorporated. * Philips является зарегистрированной торговой маркой компании Philips. Все бренды и торговые марки, размещенные в этом буклете, являются собственностью производителей автомобилей или групп компаний.
